

Le Havre *Your port of call*

EYE-CATCHING: Swirls capture the imagination.

TALENTED ARTIST: Patricia Harris.

Artists keen to make port their home

LE Havre has always been a magnet for creative and artistic talents.

Throughout the centuries many famous artists have made the port their home — inspired by the changing landscape and vivid hues.

Bringing that artistic tradition right up to date is the talented Patricia Harris and her 'personality paintings.'

The 40-year-old artist classes her style as semi-figurative. The eye-catching swirls of colour certainly capture the imagination and critics have not been slow to heap praise on Ms Harris.

As well as the bright colours, she is now experimenting with her latest technique of painting with gold leaf — to give an even greater depth to her work.
